These Messaging Terms describe the invitation-only Meier Made Agent Messaging program for authorized SMS and MMS conversations with AI agents operated by Meier Made, LLC.

Program and Operator

Meier Made Agent Messaging is operated by Meier Made, LLC. The agents use dedicated business phone numbers to communicate with Meier Made and a small group of people Meier Made explicitly authorizes. The numbers are not public subscription lines.

Meier Made's agents are AI systems. Their responses may be generated automatically and should not be treated as emergency, legal, medical, financial, or other professional advice.

The agents do not send marketing, lead-generation messages, promotions, bulk broadcasts, or cold outreach.

Access and Opting In

Meier Made provides an approved contact with an agent's number and these disclosures directly. Authorization controls who may use the number; being placed on an access list does not itself subscribe anyone to messages. The contact opts in by initiating an SMS or MMS conversation from their own phone. Sending the first message requests and permits replies and follow-up updates related to that conversation or work requested by the contact.

Access authorization is not consent by itself. Each person chooses for themselves, and one person cannot opt in another. Every participant in a group conversation must be separately authorized and choose to participate. Consent is not a condition of purchase.

Message Types

Messages stay connected to an active conversation or work an authorized contact requested. They may include conversational replies, questions and clarifications, requested task or scheduling updates, blocked-work notices, completion reports, and relevant direct or addressed group-MMS responses.

The program does not send marketing, lead-generation messages, promotions, bulk broadcasts, or cold outreach.

Frequency and Charges

Message frequency varies with each conversation, the work requested, and agent activity. A single request may require multiple messages. Message and data rates may apply according to the participant's carrier plan.

Opting Out

Reply STOP to an agent number to stop further messages from that number. You may receive one confirmation. If you communicate with more than one Meier Made agent number, manage the preference separately for each number.

Where permitted, reply START to resume messaging after opting out.

Help and Support

Reply HELP to an agent number or email support@meiermade.com. Do not send passwords, payment details, private keys, or one-time security codes by SMS.

Privacy

Meier Made uses phone numbers, message content, consent and suppression records, delivery information, and related service data only as needed to operate, secure, and support the requested conversations. The [Privacy Policy](#) explains these practices in more detail.

SMS opt-in data and consent status are not shared with third parties for their unrelated promotional or marketing purposes.

Carriers and Delivery

Wireless carriers are not liable for delayed or undelivered messages. SMS and MMS availability, group behavior, and delivery may vary by carrier, device, network conditions, and the participant's plan.

Questions

Questions about these Messaging Terms may be sent to support@meiermade.com. The general [Terms of Service](#) also apply.
